LESSONS IN CONSERVATION
SERVING TO SAVE

WHAT ARE WE GETTING UP TO?

You are going to learn about our natural world and conservation.

IMAGINE THE EARTH IS AN

APPLE

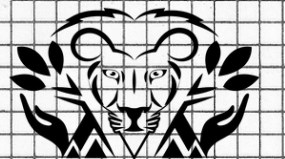

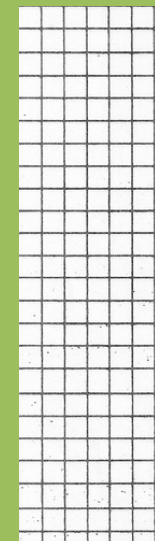

WHAT IS CONSERVATION

Protecting our world so that our children can enjoy it too.

It is the sustainable use of nature by humans.

WHY DO WE NEED TO PROTECT THE EARTH?

The earth provides for us in many ways.

Can you think of ways in which the earth provides for us?

WHY IS CONSERVATION IMPORTANT?

Protects animals and plants

Job creation

Tourism

Money

LET'S WATCH A VIDEO

LESSONS IN CONSERVATION
SERVING TO SAVE

WE ARE DAMAGING OUR EARTH

- We don't treat earth with respect.
- The earth is running out of resources fast!
- Nature is suffering.

WAYS YOU CAN CONSERVE

DON'T LITTER

PLANTING INDIGENOUS SPECIES

WAYS YOU CAN CONSERVE

REDUCE PLASTIC USE

TURN OFF LIGHTS AND WATER

HOW DOES THIS AFFECT ME?

We are all **connected**.

Small actions everyday done by millions of people add up.

Certain actions can be very harmful to plants and animals which in turn becomes harmful to us.

Your **habits and actions** affect everything either negatively or positively.

SMALL ACTS, WHEN MULTIPLIED BY
MILLIONS OF PEOPLE, CAN
TRANSFORM THE WORLD!
